## Corsets That Have Received the Indorsement of Fashion.

#### FLEXIBILITY AN IMPORTANT FEATURE OF THE NEW MODELS.

Gowns fitted over any of our exclusive Corsets, which are made expressly for us after our own designs and according to the exact ideas of our clientele, will take on the lines required by fashion. Their construction is not only scientific and of the best, but they give the figure ample support, yet retain the soft, pliant lines of nature without the least suggestion of rigidity.

Any one of these Corsets having been fitted by our experienced corseticres, insures clinging smoothness of fit, and produces the graceful, classic lines now demanded.

The case and comfort which these corsets afford, despite their length of skirt, show how cor-

rectly they are made.
